1. Introduction

This user manual describes how to use the Community Ski Race Management System. The system is a web-based application for managing a community ski racing league. It allows league admins to create teams, assign coaches and skiers, create courses, schedule races, enter results, and view league statistics. Coaches and skiers can log in to view their team information, race schedules, alerts, and results.

1a. System Requirements

The system runs in a modern web browser. The system requires:

- A computer with internet or local network access
- A modern browser such as Chrome, Firefox, Edge, etc.
- Access to the MySQL database used by the application

2. Getting Started

2a. Opening the System

When the application opens, the user is shown the welcome screen. From this screen, the user can go to the login page.

2b. Registering a New Account

To register a new account, select the register button below the login button shown in Figure 1. You will then be prompted to enter your:

- First name
- Last name
- Email
- Password
- Role (skier or coach)

Then, click the register button to create your account.

2c. Logging in

To login, enter the email and password you registered your account with. Then select the login button shown in Figure 1 to be brought to the dashboard associated with your role.

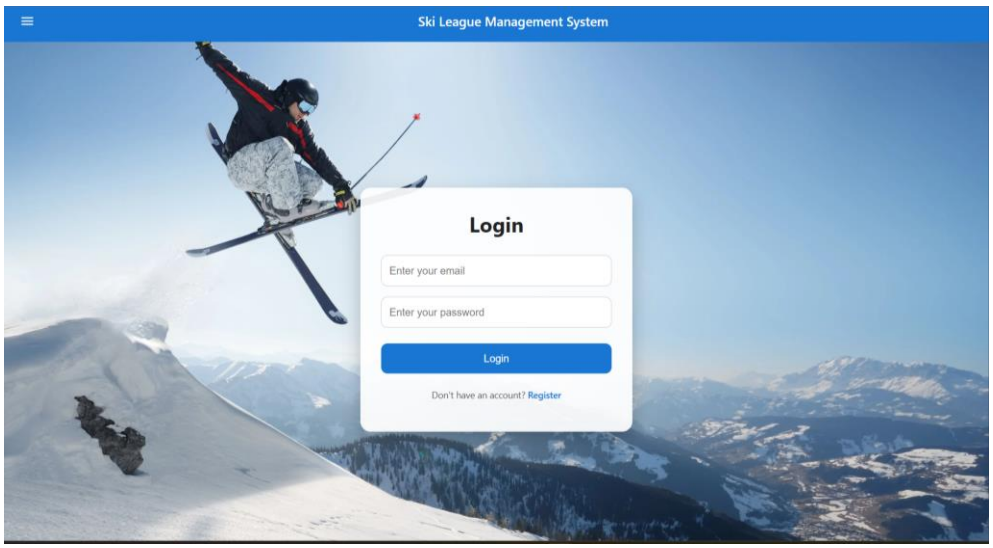

Figure 1: Login screen

3. Admin Operations

3a. Viewing the Admin Dashboard

The admin can view the admin dashboard by logging in with their email and password. An admin can not be registered on the website, they must be pre-inserted into the database. Once logged in, the admin will see the 4 buttons shown in Figure 2 on their dashboard:

- Manage Coaches
- Manage Skiers
- Manage Events
- League Stats

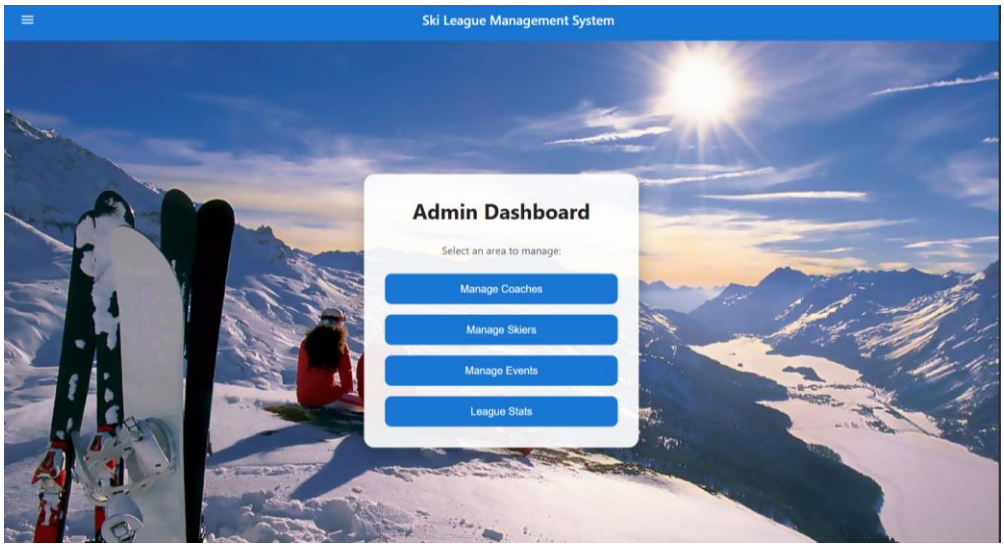

Figure 2: Admin dashboard

3b. Creating, Removing, and Deleting Coaches

Coaches can be managed by selecting the “Manage Coaches” button from the admin dashboard. To assign a coach to a team, select the team and the name of the coach to assign to the team, then select the “Assign Coach” button. To remove a coach from a team, select the “Remove From Team” button in front of the coach you wish to remove. To delete a coach, they must not be assigned a team, then the “Delete” button can be selected to remove them from the system.

3c. Creating, Removing, and Deleting Skiers

Skiers can be managed by selecting the “Manage Skiers” button from the admin dashboard. To assign a skier to a team, select the team and the name of the skier to assign to the team, then select the “Assign Skier” button. To remove a skier from a team, select the “Remove From Team” button in front of the skier you wish to remove. To delete a skier, they must not be assigned a team, then the “Delete” button can be selected to remove them from the system.

3d. Creating and Deleting Courses

A course can be created by selecting the “Manage Events” button, followed by the “Create Course” button. A course name must be input in the text entry field, and then the “Create Course” button can be selected. To delete a course, it must not be in current use by a race. If it is not, select the “Delete” button in front of the course you wish to remove.

3e. Creating and Deleting Teams

A team can be created by selecting the “Manage Events” button, followed by the “Create Team” button. A team name must be input in the text entry field, and then the “Create Team” button can be selected. To delete a team, it must not be in current use by a coach, skier, or race. If it is not, select the “Delete” button in front of the team you wish to remove.

3f. Scheduling, Canceling, and Deleting Races

To schedule a race, select the “Manage Events” button, followed by the “Create Race” button. The following input must be given:

- Race name
- Start and end time
- Course
- Minimum of two teams

Races won’t be able to schedule if they are scheduled in the past, or if the end time is before the start time. Races also won’t be able to schedule if there is conflict with teams, races, or courses. To cancel a race, select the “Cancel” button shown in Figure 3, located in front of the race you wish to cancel. If you want to delete a race, it must be cancelled first. Then, you can select the “Delete” button shown in Figure 3, located in front of the race you wish to delete.

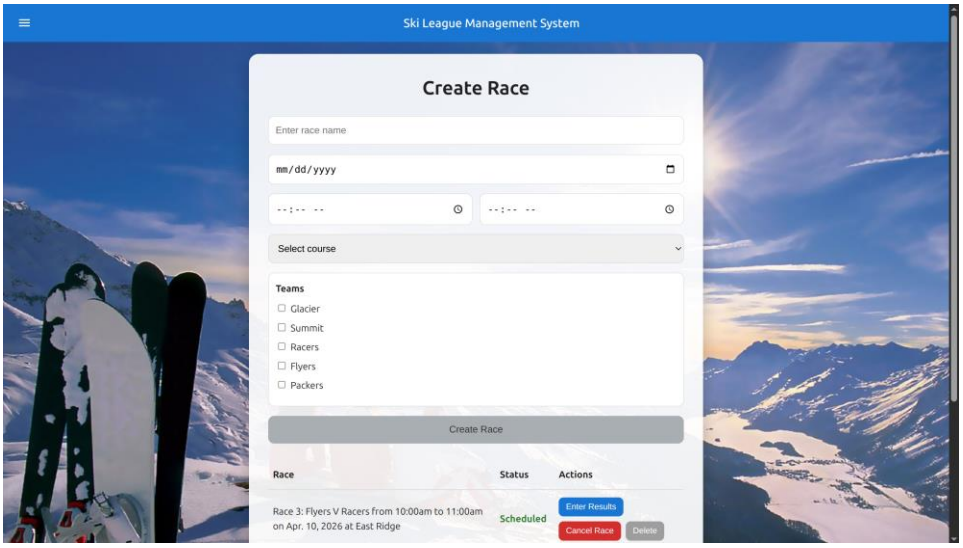

Figure 3: Create race

3g. Entering Race Results

Entering race results can be done after a race is complete. It cannot be done for races that have not been completed yet, or for cancelled races. To enter results, press the "Enter Results" button shown in Figure 3, located in front of the race you wish to enter results for. Then, input the time in seconds for each skier in the race into the text fields shown in Figure 4. All skiers must get a positive integer time entered before saving results. To save results, press the "Save Results" button located at the bottom of Figure 4.

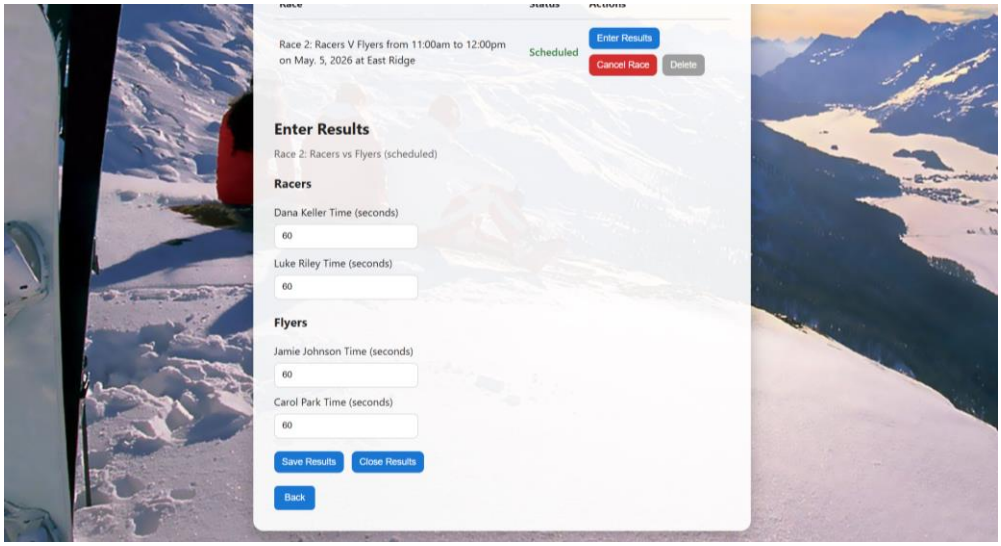

Figure 4: Enter results

3h. Viewing League Statistics

To view league statistics, press the “League Stats” button shown in Figure 5, located on the admin dashboard. This will show the following information for each team:

- Rank in ski league
- Coach
- Skiers
- Record
- Completed races
- Average team time.

To view individual skier rankings, select the “Skier Rankings” button in the top right corner of Figure 5. This will show you each skiers:
